

Faculty of Engineering & Technology

Department of Mechanical Engineering

The mechanical engineering department conducted a Seminar on “Strategies for Enhancing Research Impact: Elevating Your H-Index and Citations” by Dr. Navdeep Singh Grewal on 1st March 2024. The primary objective of the expert lecture titled "Strategies for Enhancing Research Impact: Elevating Your H-Index and Citations" was to provide faculty members in engineering and technology with practical insights and strategies to improve their research impact metrics, particularly focusing on increasing their H-index and citation counts. The lecture aimed to empower attendees with actionable tactics and best practices that they could implement in their research endeavors to elevate their scholarly visibility and influence within their respective fields. By addressing the significance of the H-index and citations in academic evaluation and offering concrete strategies for publication, collaboration, and engagement, the lecture sought to equip participants with the tools and knowledge necessary to enhance their research impact and advance their academic careers.
